# COGITO Intelligence API software demos

## Privacy Policy

---

This document describes the COGITO Intelligence API software demos privacy policy procedures regarding processing of personal data of the users who consult it.

This policy, according to article 13 Decreto Legislativo n. 196/2003 (Italian legal code for the protection of personal data), concerns those who interact with COGITO Intelligence demo.

This policy is applicable exclusively to the above-mentioned COGITO Intelligence API software demos and its parts and cannot be extended to websites or pages not belonging to the site itself that can be accessed by the user with links.

### **Collection of personal information**

By consulting this website or by interacting with it, data related to identified or identifiable individuals may be processed. The "owner" of this processing is Expert System S.p.A.

The processing procedures connected to web services of this site take place at the above-mentioned location and are attended only by the technical staff of the office in charge, or by maintenance staff. No data gathered during the web services or the consulting of the pages will be communicated or diffused, unless explicitly permitted by the user.

### **Categories of processed data**

Navigation data, information systems and software procedures for the functioning of this website may acquire, during their routine operations, some personal data whose transmission is implied by the use of Internet communication protocols.

The information is not gathered in order to be associated to identified individuals, but it may allow the identification of the user, through the processing and associations of data obtained from third parties.

Within this category of data are included IP addresses or domain names of the computers used by the visitors connecting to the website, as well as the addresses in URI notation (Uniform Resource Identifier) of the required resources, the time of the request, the method used to query the server, the size of the file obtained as response, the numeric code identifying the status of the server response (success, failed, etc.), and further parameters related to the operative system and to the computer environment of the user.

Data will be strictly used to obtain anonymous statistical information as well as to monitor the use of the website, and to audit its correct functioning to thwart any attempts of misuse.

Data provided voluntarily by the user. The optional, explicit and voluntary sending of data to this site implies the acquisition of the user's address, which is needed in order to answer the requests, as well as the acquisition of further personal data previously sent.

Synthetic information can be found and viewed in the pages of the website devoted to special services on demand.

## Processing modes

The personal data gathered during navigation are processed using automatic tools, only for the time strictly required to achieve the goal for which they were gathered. Specific safety measures are observed to avoid the loss of data and to prevent illicit or incorrect use and unauthorized access.

## Right of access to personal information

The owners of the personal data have the right, in any moment, to obtain the confirmation of the existence of these data, to know their content and origin, to verify their correctness or to inquire about their integration, updating, or correction.

According to the same article, the user has the right to ask for deletion, transformation in anonymous form or blocking of any data processed breaking the law, as well as to oppose in any case, for legitimate reasons, their processing.

## Information Collection and Usage

Expert System S.P.A. is the sole owner of the information collected using COGITO Intelligence API Web Service. We will not sell, share, or rent this information to others in ways different from what is disclosed in this statement.

## Registration

In order to use certain parts of the COGITO Intelligence API Web Service, a **user must first complete a registration form**. During registration a user is required to give their contact information (such as name, email address, phone number and company name). This information is used to contact the user about the services on our site for which they have expressed interest. Users are not required to complete any registration form to use our site, however, access to certain areas on our site and downloads may be restricted to registered visitors.

## **Cookies**

COGITO Intelligence API software demo may use HTTP Cookies to facilitate certain features of COGITO Intelligence API software demo operation, including authenticating, tracking, and maintaining specific information about users. Although you are free to disable usage of HTTP Cookies within your web browser, this may encumber the proper operation of specific COGITO Intelligence API software demo features.

## **Log Files**

COGITO Intelligence API software demos groups information on IP addresses to analyze trends, administer the site, track user's movement, and gather broad demographic information for aggregate use. Please note that IP addresses are not linked to personally identifiable information.

## **Links**

Please be aware that COGITO Intelligence API software demos is not responsible for the privacy practices of such other sites. We encourage our users to be aware when they leave our site and to read the privacy statements of each and every Web site that collects personally identifiable information. This privacy statement applies solely to information collected by this Web site.

## **Legally Required Disclosure**

COGITO Intelligence API software demo will disclose your personal information when required to do so by **national and international law.**

## **Security**

COGITO Intelligence API software demos aims to protect the security of your personal information and your choices for its intended use. Although COGITO Intelligence API software demos takes significant security measures regarding your personal information collected from and stored on the Site, due to the open nature of the Internet, we cannot guarantee that any of your personal information stored on our servers, or transmitted to or from a user, will be free from unauthorized access, and we disclaim any liability for any theft or loss of, unauthorized access or damage to, or interception of any data or communications. By using COGITO Intelligence API, you acknowledge that you understand and agree to assume these risks.
